•	SHORET	25X1A
25X1	- 2 -	25X1A
25X1A	1. Comment. The AAA unit left Werneuchen airfield in early June 1953 for practices with live ammunition at the Wustrow firing range and, then, returned to its former emplacements on 7 July 1953.	25X1
25X1A	3. Comment. During the first half of July, MiG-15s probably of the regiments in Finow landed at Merneuchen airfield. After 16 July, MiG-15s were no longer observed there. The information that air safety facilities were dismantled at the field agrees with previous observations made in connection with the transfers of air units.
